INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Township of East Brunswick Fire District No. 1
County of Middlesex
State of New Jersey

We have audited the accompanying financial statements of the governmental activities and each major fund of the Township of East Brunswick Fire District No. 1 (the "District") as of and for the year ended which collectively comprise the Fire District's basic financial statements as listed in the table of contents December 31, 2010. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2010, and the respective changes on financial position where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

In accordance with *Government Auditing Standards* we have also issued our report dated January 12, 2012 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreement and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 6 through 15 is not a required part of the basic financial statements but are supplementary information required by the Accounting Principles Generally Accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the financial statements of the District taken as a whole. The information included in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the financial statements, but is presented as additional analytical data as required by the Local Finance Board. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS – STATUTORY BASIS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Fire Commissioners
Township of East Brunswick Fire District No. 1
County of Middlesex
State of New Jersey

We have audited the financial statements of the Township of East Brunswick Fire District No. 1, County of Middlesex, State of New Jersey (the "District"), as of and for the year ended December 31, 2010, and have issued our report thereon dated January 12, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS – STATUTORY BASIS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)**

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identifying any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended solely for the information of the District and its management, and other federal and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

REQUIRED SUPPLEMENTARY INFORMATION

PART I

EAST BRUNSWICK TOWNSHIP FIRE DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2010
UNAUDITED

The discussion and analysis of East Brunswick Township Fire District No. 1's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2010. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is a new element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Government*.

Financial Highlights

Key financial highlights for 2010 are as follows:

In total, net assets increased \$507,791.73 from 2009.

General revenues accounted for \$1,972,518.16 or 94.76 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$109,152.71 or 5.24 percent of total revenues of \$2,081,670.87.

Total assets of governmental activities decreased by \$453,527.75 as cash and cash equivalents decreased by \$680,768.02. Receivables decreased by \$436.70 and net capital assets increased by \$1,046,293.85.

The District had \$1,573,879.14 in expenses; only \$109,152.71 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$1,972,518.16 and fund balance were adequate to provide for these programs.

Among governmental funds, the General Fund had \$1,679,994.87 in revenues and \$1,423,834.96 in expenditures. The General Fund's fund balance increased \$256,159.91 over 2009.

Using this Report

This annual report consists of series of financial statements and notes to those statements. These statements are organized so the reader can understand East Brunswick Township Fire District No. 1 as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specified financial activities.

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

District-Wide Financial Statements (Statement of Net Assets and Statement of Activities)

These statements provide both short-term and long-term information about the District's overall financial status.

Fund Financial Statements

Fund financial statements focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.

- ◆ The governmental funds statements tell how basic services were financed in the short term as well as what remains for future spending.
- ◆ Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure of contents of each of the statements.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of East Brunswick Township Fire District No. 1, the General Fund is by far the most significant fund.

Reporting the District as a Whole Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District, as a whole looks at all financial transactions and asks the question, "How did we do financially during 2010?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required programs and other factors.

Reporting the District's Most Significant Funds
Fund Financial Statements

Fund financial reports provide detailed information about the District's funds. The District uses many funds to account for a multitude of financial transaction. The District's governmental funds are the General Fund and Capital Projects Fund.

Governmental Funds

The District's activities are reported in governmental funds, which focus on how money flows in and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental funds statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

The District as a Whole

Recall that the Statement of Net Assets provides the perspective of the District as a whole. Net Assets may serve over time as a useful indicator of a government's financial position. The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Governmental Activities

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the District operations. Property taxes made up 91.56% of revenues for governmental activities for East Brunswick Township Fire District No.1 for 2010. The District's total revenues were \$2,081,670.87 for the year ended December 31, 2010. Charges for services accounted for 5.24% of revenue, state aid accounted for another .31% of revenue, other miscellaneous and special revenue accounted for the remaining 2.89%.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

The District's Funds

All governmental funds (i.e. general fund, capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$2,081,670.87 and expenditures were \$2,731,161.91. The change in fund balance for the year in the general fund was an increase of \$256,159.91 and a decrease of \$905,650.95 in the capital projects fund.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the General Fund for the year ended December 31, 2010 and the amount and percentage of increases and decreases in relation to prior year revenues.

Total Net Change in Fund Balances - Governmental Funds (From B-2) \$ (649,491.04)

Amounts reported for governmental activities in the Statement of Activities (A-2)

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

	Capital Outlay	\$ 1,163,650.95	
	Depreciation Expense	<u>(117,357.10)</u>	
			1,046,293.85

Repayments of bond principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities. 110,000.00

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+). -

In the statement of activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. 988.92

NOTES TO FINANCIAL STATEMENTS

EAST BRUNSWICK TOWNSHIP FIRE DISTRICT NO. 1
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the East Brunswick Township Fire District No. 1 (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Government*. Significant changes in the Statement include the following:

A Management's Discussion and Analysis (MD&A) providing an analysis of the District's overall financial position and results of operations.

Financial Statements prepared using full-accrual accounting for all of the District's activities.

A. Reporting Entity

The East Brunswick Township Fire District No. 1 is a political subdivision of the Township of East Brunswick, Middlesex County, New Jersey. The District functions independently through a Board of Fire Commissioners. The Board is comprised of five members elected to three-year terms. The annual Fire District election is held the third Saturday of February.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct *expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to residents or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Funds

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Project Fund – The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The financial are derived from the issuance of debt or by the reservation of fund balance that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Fiduciary Funds

Trust Funds – The Trust Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and postemployment healthcare benefits, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the District receives cash.

The District reports the following major governmental funds:

- General Fund
- Capital Projects Fund
- Debt Service Fund

Additionally, the District reports the following fund types:

- Deferred Compensation Trust Fund (Unaudited)
- Payroll Trust Fund
- Unemployment Compensation Trust Fund
- Penalty Assessment Trust Fund

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Private-sector standards of accounting, and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Amounts reported as *program revenues* include 1) charges to residents for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Budgets/Budgetary Control

Annual budgets are prepared each year for the operations of the fire district. The budgets are approved by the Division of Local Government Services, Department of Community Affairs, and State of New Jersey. The budgets are then voted upon by the public, at the annual fire district election held on the third Saturday in February. Budgetary transfers may be made during the last two months of the year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

EAST BRUNSWICK TOWNSHIP FIRE DISTRICT NO. 1
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

F. Cash, Cash Equivalents and Investments

Cash and Cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations are certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey fire districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statutes provide a list of permissible investments that may be purchased by New Jersey fire districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no Governmental Unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Revenues and Expenditures

Revenues are recorded when they are determined to be both available and measurable. Generally, fees and other non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures are recorded when the related liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due.

H. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods are recorded as an expenditure during the year of purchase.

I. Short-term Interfund Receivables/Payables

Short-term interfund receivables/payables represents amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

J. Capital Assets

Capital assets, which include land, water stock, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000.00. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extended assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Buildings and improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

<u>Assets</u>	<u>Years</u>
Fire Trucks	25
Other Vehicles	5
Vehicle	0
Refurbishment	15

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Long-Term Obligations

Long-term debt is recognized as a liability of the Fire District when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

N.J.S.A. 40A:14-84 governs the procedures for the acquisition of property and equipment for Fire Districts, and *N.J.S.A. 40A:14-85* to *87* governs procedures for the issuance of any debt related to such purchases. In summary, Fire Districts may purchase fire fighting apparatus and equipment and land and buildings to house such property in an amount not exceeding 5 mills on the dollar of the last assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to \$60,000.00 or 2 percent of the assessed valuation of property, whichever is larger.

L. Fire District Taxes

Upon the proper certification to the assessor of the municipality in which the Fire District is located, the assessor shall assess the amount of taxes to be raised in support of the Fire District's budget in the same manner as all other municipal taxes. The collector or treasurer of the municipality shall then pay over to the treasurer or custodian of funds of the Fire District the taxes assessed in accordance with the following schedule: on or before April 1, an amount equaling 21.25% of all moneys assessed; on or before July 1, an amount equaling 22.5% of all moneys assessed; on or before October 1, an amount equaling 25% of all moneys assessed; and on or before December 31, an amount equaling the difference between the total of all moneys so assessed and the total amount of moneys previously paid over.

M. Fund Equity

Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 2. CASH, CASH EQUIVALENTS AND INVESTMENTS

The District's deposits are insured through either the Federal Deposit Insurance Corporation (FDIC) or New Jersey's Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires all banks doing business in the State of New Jersey to maintain additional collateral in the amount of 5% of the average public deposits and to deposit these amounts with the Federal Reserve Bank for all deposits not covered by the FDIC.

Bank balances are insured up to \$250,000.00 in the aggregate by the FDIC for each bank. At December 31, 2010, the carrying amount of the District's deposits and investments was \$6,748,553.34 and the bank balance of the District's deposits was \$6,252,255.42. Of the bank balances, \$500,000.00 was covered by FDIC and \$5,752,255.42 was covered by GUDPA. In addition, the District had \$582,528.89 invested in its Deferred Compensation Program (LOSAP) with the Variable Annuity Life Insurance Company. This amount is not covered by FDIC or GUDPA.

The District is permitted to invest public funds in accordance with the types of securities authorized by *N.J.S.A. 40A:5-15.1*. Examples of the allowable investments are bonds or other obligations of the United States or obligations guaranteed by the United States of America, Government Money Market Mutual Funds, bonds or other obligations of the local unit or units within which the District is located, Local Government investment pools, and agreements or the repurchase of fully collateralized securities, if transacted in accordance with the above statute. The detail is as follows:

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 2. CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

- (a) Custodial Credit Risk – The District's deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are: uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. The deposit risk is that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The District's investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the District and are held by either: the counterparty or the counterparty's trust department or agent but not in the District's name. The investment risk is that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of the investment or collateral securities that are in possession of an outside party.

The New Jersey Cash Management Fund is a common trust fund administered by the New Jersey Department of the Treasury, Division of Investment. Securities in the Fund are insured, registered or held by the Division or its agent in the Fund's name. At December 31, 2010, the District had \$496,097.92 on deposit with the New Jersey Cash Management Fund.

As of December 31, 2010, the District's bank balance was not exposed to custodial credit risk since the full amount was covered by either FDIC insurance or GUDPA. The District does not have a formal policy for deposit custodial credit risk other than to maintain sufficient funds in the checking account to cover checks that have not cleared the account as of a specific date.

As of December 31, 2010, the District's balance in its Deferred Compensation Program and New Jersey Cash Management Program were not covered by FDIC or GUDPA.

- (b) Concentration of Credit Risk – This is the risk associated with the amount of investments the District has with any one issuer that exceeds 5 percent or more of its total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 2. CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

(c) Credit Risk – GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government. This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In general, the District does not have an investment policy regarding Credit Risk except to the extent previously outlines under the District's investment policy.

(d) Interest Rate Risk – This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate fluctuations.

NOTE 5. PENSION PLAN

Description of Systems

Substantially all of the District's employees participate in the following contributory defined benefit public employee retirement systems which have been established by State statute: the Public Employees' Retirement System (PERS). This system is sponsored and administered by the New Jersey Division of Pensions and Benefits. The Public Employees' Retirement System is considered cost sharing multiple-employer plans.

Public Employees' Retirement System

The Public Employees' Retirement System (PERS) was established January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide coverage, including post-retirement health care, to substantially all employees who are either full time or earn greater than \$1,500.00 annually with certain exceptions of the State or any county, municipality, school district or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after eight to ten years of service and twenty-five years for health care coverage. Members are eligible for retirement at age sixty with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service.

Early retirement is available to those under age sixty with twenty-five or more years of credited service. Anyone who retires early and is under age fifty-five receives retirement benefits as calculated in the above-mentioned formula but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age fifty-five).

NOTE 5. PENSION PLAN (CONTINUED)

Contributions Required to be Made

Employee contributions for 2010 were five and one-half percent (5½%) of the employee's base wages for PERS is actuarially determined annually by the Division of Pensions. The District's contributions to the plan for the past three (3) years are as follows:

PERS					
Borough					
<u>Year</u>	<u>Normal</u>	<u>Accrued</u>	<u>Pension Security Act Credit</u>	<u>Net Cost</u>	<u>Employees</u>
2010	\$7,025.00	\$9,026.00	None	\$16,051.00	\$11,010.71
2009	6,314.00	7,303.00	None	13,617.00	11,999.00
2008	10,365.00	7,988.00	(\$3,670.00)	14,683.00	10,628.83

Pension credits were as a result of a legislated revaluation of pension system assets.

Pension Reports

The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the pension plans and an annual actuarial valuation report. Those reports may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at www.state.nj.us/treasury/pensions/gasb-43-sept2008.pdf.

NOTE 6. POST EMPLOYMENT RETIREMENT BENEFITS

The District does not provide post employment health benefits for its retired employees.

FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability and surety bonds. Insurance coverage was maintained in amounts consistent with prior years. The District did not have any claims that exceeded coverage.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the “Benefit Reimbursement Method”. Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District’s expendable trust fund for the current and prior two years:

<u>Fiscal Year</u>	<u>Interest Earned</u>	<u>Employee Contributions</u>	<u>Ending Balance</u>
2010	\$ -	\$ 513.60	\$ 4,340.70
2009	-	503.37	3,827.10

NOTE 9. FUND BALANCE APPROPRIATED

General Fund – Of the \$1,751,804.00 General Fund fund balance at December 31, 2010, \$129,506.93 is committed for year end encumbrances; \$201,533.00 is assigned-designated for subsequent year's expenditures and included as anticipated revenue for the year 2011 and \$1,420,764.07 is unassigned.

Capital Fund – Of the \$4,755,867.83 Capital Fund fund balance at December 31, 2010, \$3,412,203.44 is committed for year-end encumbrances, \$935,664.39 is assigned for capital improvements and \$408,000.00 is unassigned Future Capital Outlay.

Of the General Fund balance \$250,145.00 has been assigned, appropriated and included as anticipated revenue for the year 2012.

NOTE 10. LITIGATION

As of the date of this report, there is no litigation pending which, if decided adversely to the District, would have a material impact on the District.

NOTE 11. LENGTH OF SERVICE AWARDS PROGRAM (LOSAP)

The Fire District offers its employees a Length of Service Awards Program in accordance with Internal Revenue Code Section 457 which has been approved by the Director of the Division of Local Government Services. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the Program and all income attributed to those amounts are the exclusive property of the Fire District, subject to the claims of its general creditors. Participants' rights under the Program are equal to those of a general creditor of the Fire District in an amount equal to the fair market value of the deferred account for each participant. It is unlikely that the Fire District would use Program assets to satisfy claims of the general creditors in the future.

The District has selected Variable Annuity Life Insurance Company (VALIC) to administer its LOSAP Program. As of December 31, 2010, the District's LOSAP Program had assets of \$658,328.89. A separate accountant's review report has been prepared.

NOTE 12. OFFICE SPACE LEASE

The District leases office space in a building owned by the volunteer fire company, with which is also has a service contract. The lease expires on December 3, 2015 and requires monthly lease payment of \$2,241.00 (\$26,892.00 per year).

GENERAL COMMENTS AND RECOMMENDATIONS

GENERAL COMMENTS AND RECOMMENDATIONS
DECEMBER 31, 2010

Scope of Examination and Conditions of Records

Our examination covered the funds of the Board of Fire Commissioners, Fire District #1, ("the Board") Township of East Brunswick handled by the Treasurer.

The financial records were maintained in good condition.

Minutes of Board meetings were properly maintained by the Recording Secretary.

Cash and Cash Equivalents

The balances in banks at December 31, 2010 were verified with the bank and reconciliations and/or statements issued by the depositories.

Our examination revealed that the Fire District maintains its funds in a money market fund. A cash management plan was adopted for 2010.

Examination of Claims

In verifying expenditures, computations were tested on claims approved and paid. No attempt was made in this connection to establish proof of rendition, character or extent of services, nor quantities, nature, propriety of prices or receipt of materials, these elements being left necessarily to internal review in connection with approval of claims.

Claims paid during the period under audit were examined on a test basis to determine that they are submitted on Board vouchers, audit, itemized, signed by the officials as to approval for payment, allocation to the proper accounts and charged to the proper fiscal period, and in agreement with bill lists set forth in the approved minutes of the Board. There were minor exceptions; none of which were significant. These matters are under review by the Treasurer for corrective action

There were two (2) detailed line items that were overexpended; however, the condition does not represent a violation of law or administrative code but could be an early indication of problems if all line items were overexpended. These should be monitored for compliance during the year.

Payroll

The Payroll examination revealed that salaries are not approved by resolution of the Board. Although the Budget contains salaries for certain positions, and the Board approved hirings, there was no formal resolution setting the authorized salaries for employees. This matter has been discussed with the appropriate officials and we have been advised that this has been complied beginning in 2011. The salaries paid, however, conform to the details of the Annual Budget.

GENERAL COMMENTS AND RECOMMENDATIONS (CONTINUED)
DECEMBER 31, 2010

Contracts and Agreements Required to be Advertised for N.J.S. 40A:11-4 (as amended)

N.J.S. 40A:11-4 (as amended) states, "Every contract or agreement, for the performance of any work or the furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only after public act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding the aggregate \$21,000.00 through June 30, 2010 and \$26,000 thereafter, except by contract or agreement."

The members of the Township of East Brunswick Fire District #1 have the responsibility of determining whether any contract or agreement might result in violation of the statute and, when necessary, the Board Attorney's opinion should be sought before a commitment is made.

The minutes indicate that bids were requested by public advertising for the following item:

Refurbishment of Brush Truck

In addition, the following items were purchased under State Contract:

Fire Equipment	Radio Equipment
Two (2) Sport Utility Vehicles	

Inasmuch as the system of records did not provide for any accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

The results of our examination indicated that no individual payments, contracts or agreements were made "for the performance of any work or the furnishing or hiring of any materials or supplies", in excess of the statutory thresholds where there had been no advertising for bids in accordance with provisions of N.J.S.A. 40A:11-21.

There were a few purchases that were made during the year, which in my opinion, should have had documentation of quotes and/or State Contract numbers affixed to the paid voucher. Although quotes and/or State Contracts numbers may have existed, they were not attached to the final paid voucher as required by the Local Public Contracts Law.

Length of Service Awards Program (LOSAP)

The Length of Service Awards Program (LOSAP) Accountants Review for December 31, 2010 was completed as of the date of the audit report.

GENERAL COMMENTS AND RECOMMENDATIONS (CONTINUED)
DECEMBER 31, 2010

Fire Protection Agreement

The district has a contract for Fire Protection Services with the local volunteer fire company. The contract has a provision for the company to provide an annual accounting of all public monies received and expended by it to the Board. As of the date of this audit the report is on file at the Board office for the year ended December 31, 2010.

Financial Procedures

It is suggested that for all financial processes within each function that a review, updating and documentation of all procedures be done in order to be in compliance with recent accounting and auditing requirements related to internal control.

Timeliness of the Records for Audit

For the year 2010 the records were presented significantly beyond the required due date of the audit. This has hindered the District's compliance with the deadline for filing of the Annual Audit which is 120 days after the end of the fiscal year.

The records presented for audit were found to present an audit trail and essentially no audit adjustments were made.

Miscellaneous

The problems and weaknesses noted in our audit were not of such magnitude that they would affect our ability to express an opinion on the financial statements taken as a whole. However, the items referred to in the Comments and Recommendations need to be addressed by the Board.

An exit conference was held in accordance with Auditing Standards Generally Accepted in the United States of America for governmental entities.

Acknowledgment

During the course of the audit, we received the cooperation of the officials of the Fire District and we appreciate the courtesies extended to us.

RECOMMENDATIONS
DECEMBER 31, 2010

Recommendations:

1. It is recommended that documentation of all quotes and/or State Contract purchase numbers be attached to the paid voucher in accordance with the requirements of the Local Public Contracts Law.

Follow-up on Prior Year Audit Recommendations:

1. LOSAP

Recommendation: That the annual LOSAP contribution include a schedule of individuals be approved by resolution of the Board prior to disbursement.

Status: Subsequent attorney opinion advised that it is not required.

2. Fire Protection Agreement

Recommendation: That the annual required accounting report be obtained in accordance with the service agreement.

Status: For 2010 the report was received and is on file with the District.

3. Financial Procedures

Recommendation: That the purchasing procedures be documented.

Status: This is in process.

4. Timeliness of the Records for Audit

Recommendation: That the records to be audited be submitted in a timely manner to ensure compliance with the deadline for filing of the Annual Audit.

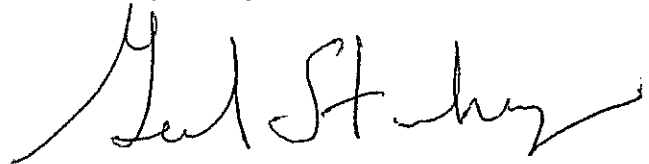

Status: There has been improvement in this area.

RECOMMENDATIONS
DECEMBER 31, 2010
(CONTINUED)

The problems and weaknesses noted in our audit were not of such magnitude that they would affect our ability to express an opinion on the financial statements taken as a whole.

Should any questions arise as to my comments or recommendations, or should you desire assistance in implementing my recommendations, please do not hesitate to call me.
